

WATER FOUNTAIN CANDLE

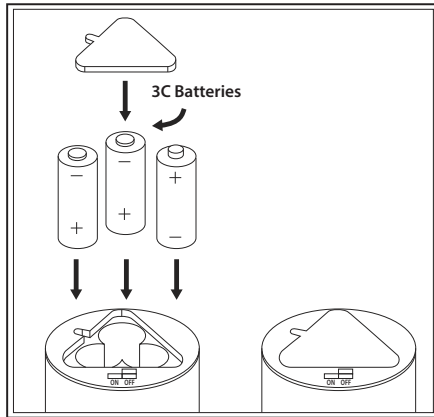

ASSEMBLY INSTRUCTION SHEET

OPERATION

- Wash inside of the fountain to remove all dust and dirt particles.
- Place fountain on a level surface that will not be damaged by water, as splashing may occur.

INSTALLING BATTERIES

- Remove the battery compartment lid on bottom of candle.
- Clean the battery contacts prior to battery installation.
- Install 3C batteries as shown on battery diagram in battery compartment.
- Return battery compartment lid to its original position.

SET UP AND USE

- Add recommended 100-200ml (3-6 fl oz)] of water into top.
- Attach topper flower and move switch on bottom of candle to ON position.
- ON/OFF Switch Function:
ON: Fountain and light function work without timer
OFF: Light and fountain are off

IMPORTANT SAFETY TIPS

- Do not put candle down heavily for vertical batteries are sensitive
- Attach topper flower and move switch on bottom of candle to ON position.
- Never allow your candle to run dry. Refill water if water evaporates.
- Indoor use only
